Introduction. Genesis 30:37-31:16 is a section of Scripture often held up to ridicule by skeptics, and even some of those committed to biblical inerrancy and authority struggle with understanding and explaining to others. So many questions have been raised: Does Jacob's "peeled bark" practice have any bearing on how sheep and goats breed?

In short: self as it suggests, refers to itself- the object which has called the method. That is, if you have N objects calling the method, then self.a will refer to a separate instance of the variable for each of the N objects. Imagine N copies of the variable a for each object; __init__ is what is called as a constructor in other OOP languages such as C++/Java.
